

2014 Friesen International Prize Lecture

# Windows of Opportunity:

Working in the Frontiers  
of Biomedical Research

Wednesday March 25, 2015  
4:00pm-5:00pm

Libin Lecture Theatre HSC  
Reception in the HRIC Atrium

## Dr. Lap-Chee Tsui

Past President and Vice-Chancellor of  
The University of Hong Kong  
Winner, 2014 Henry G. Friesen  
International Prize in Health Research

Dr. Tsui has had a distinguished  
academic career with major discoveries  
in Genetics and Genomics. He identified  
the Cystic Fibrosis gene in the late 1980s  
and in further studies of the human  
genome, characterized chromosome 7.  
He contributed significantly to fighting  
the SARS coronavirus in 2003 and led  
the Hong Kong consortium in the  
international effort, completing the first  
comprehensive catalogue of the  
human genetic evaluations.

All faculty, staff and students welcome
